

Smit Patel

smitp1030@gmail.com | Toronto, Ontario | (289) 623-3835 | [LinkedIn](#) | [Portfolio](#)

A creative and collaborative **Software Developer** with 1 year of development work experience, demonstrating application of **UI/UX design**, technical requirements, **testing**, and **AI for development**. Holds a **Bachelor of Technology** degree, while currently pursuing software engineering technology, specializing in **Game Programming**. Foundational experience with **Agile/Scrum** practices and **project management**.

TECHNICAL SKILLS

Programming: C#, C++, Java, Python, HTML, CSS, JavaScript

Frameworks & Libraries: Express, React, and Node.js, Angular

Database Management: SQL, MySQL, Oracle SQL Developer, MongoDB

Tools: Unity, Visual Studio, Gimp, Tiled, Figma, Blender, Audacity, GitHub, Jira, Trello, Microsoft Suite.

PROFESSIONAL EXPERIENCE

Game Developer Intern | Digitalrsooar, Ahmedabad, India May 2023 - June 2023 & Jan. 2024 - April 2024

- Supported the development of *Cricket League*, a short 3D cricket game (1-over matches) designed for the Android platform, using Unity Game Engine.
- Contributed as a developer, UX designer, and project coordinator, ensuring smooth development
- Focused on developing the AI-driven fielder mechanics, including creating complex calculations for accurate projectile motion to handle ball throws, predict landing spots, and perform realistic catches
- Designed and prototyped the game's user interface (UI), focusing on functionality and player experience as part of the UX design process
- Actively managed the project timeline and tasks, ensuring team coordination and successful completion

Game Developer Intern | AhuraTechnosoft LLP, Ahmedabad, India May 2022 - Aug 2022

- Contributed to the development of *AT Least*, a 2D playing cards game, by taking on a dual role of Gameplay Programmer and Designer
- Handled key tasks such as the documentation and design phases, crafting a solid foundation for the project and ensuring seamless gameplay mechanics.
- Engineered critical gameplay systems such as card management system through object pooling, user interaction system, advanced AI/Bot players for offline play, and complex game logic calculations
- Archived functionally working prototype in half of the given deadline (15 days); played an important role in delivering a complete offline version of the game by the end of the internship
- Demonstrated exceptional problem-solving skills and technical expertise, particularly in, designing AI players, enhancing the gaming experience for solo players

PROJECTS

The Iron Keep (Game) - Available [here](#) on Itch.io

- Developed *The Iron Keep*, a 2D survival tower defence game for windows platform.

Calendar App (Backend - MERN Stack) - Available [here](#).

- Calendar App is an event/task scheduling web app created using MERN stack.

Dice Racer (Game) - Available [here](#) on Itch.io

- Developed *Dice Racer*, a 3D board game for windows platform during a game jam GMTK 2022.

EDUCATION

Game Programming (Co-op) Advanced Diploma (Fast-Track)

Sept. 2024 - Present

Centennial College | Toronto, ON

GPA: 4.3/4.5 (A)

Courses: Web Application Development | Mobile Application Development | Testing & QA | Java Programming |

Software Systems Design | Assets for Game Developers | Game & Simulation | C++ Programming

Bachelor of Technology - Computer Engineering

Graduated 2024

Charotar University of Science and Technology | Anand, India

CGPA: 8.7/10

Courses: Information Security | Software Development | Cloud Computing | Mobile Application Development |

Image Processing | Digital Electronics | Operating System | Internet of Things | Big Data Analytics
